

OSA-3682-64

4 August 1964

MEMORANDUM FOR : Chief, Personnel Branch, Office of
Special Activities

SUBJECT : Recruitment of Photographic/Sensors Officer

1. You are requested to proceed with active recruitment, as previously discussed, of an engineer to fill a vacancy in the Sensors System Division of Deputy for Technology. Qualifications are detailed below. Grade level would be GS-14/15.

2. a. Education: Degree in Mechanical Engineering. Major in optics or physics, or at least studies in them necessary. Studies in aerial reconnaissance also required.

b. Experience: Practical experience in photogrammetry with emphasis on aerial reconnaissance equipment and techniques.

c. Background: Research and development engineer familiar with the state of the art in camera and sensing devices in the areas of aerial and space reconnaissance and space surveillance.

d. Other: A knowledge of the technical aspects of contracts dealing with optics is highly desirable.

3. In addition to the above, the ability to effectively conduct liaison within the government and with contractors, evidenced by previous occupations, is sought. Previous experience in report writing is also a necessity.
